

CLINIC BOOKING & ELECTRONIC MEDICAL RECORDS

About OASN Solutions

OASN Solutions is IT technology provider in general and platform Development company specialist in Web and Mobile Applications. We identify market needs and develop state-of-the-art tools to address those needs. We focus on usability, agility and simplicity with a global vision to cover the needs of different markets.

Platform

- Clinic Booking & e-MR is a Web application based on Cloud Access (no on-premises installation, servers or database)
- is accessible by browser vis Internet and Mobiles (supporting iOS and Android)
- English /Arabic Language (upon request)
- Zero downtime
- Credibility of Google technology and support services

V1.0

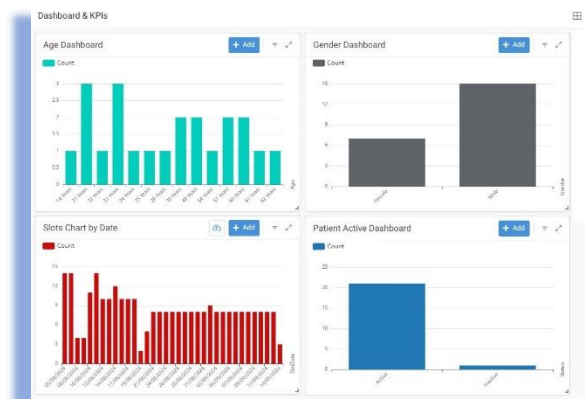

"Clinic Booking & e-Medical Records" application is a user-friendly platform that can be accessed through both mobile and laptop devices via an Internet browser. This seamless accessibility makes it convenient for doctors to manage their clinic and medical records on-the-go. The application serves as a comprehensive platform for secretarial tasks such as scheduling appointments (booking), adding new patient data, uploading prescriptions and necessary images. In addition to, entry of medical service expenses/payment. The platform can deal with different specialty of the clinic.

The image shows two screenshots of the application. The left screenshot displays a 'PatientRecords Inline' table with columns for 'PatientRecordDate' and 'Note'. It lists several records for a patient named MEDHAT ZAKY. Below the table, there is a 'Slots Inline' section showing a list of appointment slots with their dates and times. A dental X-ray image is overlaid on the bottom right of this screenshot. The right screenshot shows a similar interface but for a patient named NOURA EMAM, with a 'BEFORE' and 'AFTER' photo comparison of her teeth.

This screenshot shows a list of patients on the left and a 'Slots Inline' table on the right. The patient list includes Nazmy Fares (29 Years), Moadz Kamel (30 Years), NOURA EMAM (23 Years), and Kamel Hanafy (61 Years). The 'Slots Inline' table has columns for 'SlotDateTime', 'PatientID', 'ServiceCost', 'PaidAmount', and 'OutstandingAmount'. It shows several appointment slots for NOURA EMAM, with the most recent one on 08/08/2024 at 03:00:00 pm, with a service cost of EGP43,500.00 and an outstanding amount of EGP3,500.00.

Management level

The platform is supported by a dashboard includes charts and KPIs that provide an overall view of the performance of booking (past and future), actual visits, efficiency, revenue and the outstanding amounts. Also, provides a statistical about gender and age of patients.

Exporting to Excel / csv format: The platform allows exporting the platform data including all its tables to Excel or csv format. Also OASN Solutions team is providing a weekly backup of the platform data.

How the “Clinic Booking & e-MR” operates?

Requirement
Internet access

Technical Support
- Through email or direct feedback
- Reply within 48 hours
- Urgent cases within 24 hours

Setup & operation

- Clinic slot template (per week)
- Patient profile entry/update
- Booking and visit note registration
- Capture treatment prescription, xray & lab results, any images, ...etc.

The doctor can utilize the application to enter visit notes and monitor the progress of their patients' medical files and follow up the outstanding payment. This technology not only streamlines administrative tasks, but also allows for efficient and accurate record-keeping, ultimately improving the quality of patient care. With its easy-to-use interface and versatile capabilities, the doctor's clinic and medical file application is a valuable tool for modern healthcare professionals.
