# THE SCHOOL BUS

School Bus integrated platform takes the heat out from the whole trip of school bus from the start point till the final destination point. There are many stakeholders in such cycle begins with the School Admin and ends with Parents and passes by Bus Supervisor and Student.

School Administration

What else could make the school admin feel relaxed about the school buses' routes and the students of each route other than the ability to track each and every bus at any point in time to know where exactly each bus is and when exactly the route of each bus will end after a safe arrival of each student back home ?

Parents

What else could make the parents feel comfortable about their kids' trip to and back from school other than tracking the trips in real time and know where exactly their kids are and when exactly they will pick up and drop back home ?

Integration Aim

- Minimizing the waiting time of young students on street waiting for the bus to arrive.
- Reducing fear in parents, especially after the increase in child abduction rates in some countries.
- Providing necessary notifications to parents about picking up and dropping off times of their children.
- Full control by the school administration on the buses' routes.
- Providing information about adherence to deadlines for bus driver / supervisor.
- Receiving parent feedback about bus transportation services.

OASN SOLUTIONS

How the school operates the platform?

Setup
- Identify the administrator for entry of the school setup (buses, drivers, supervisors, classes and students)
- Picking up/drop of location of the student might be defined during the one-week trip prior to season starting
- Create the route of each bus and the different trip dates
- Identify the way for notifying the parents (email , application message).

Operation
- Monitor & control the daily trips (Instantaneous)
- Measure the performance of the different trips
- Take necessarily action prior to parent complain
- Monitor the KPIs of drivers and supervisors

Beside gaining parent satisfaction

Free trail
- Try the whole platform for free (rent with zero cost) for one month
- Free trail for school admin, supervisor and parent regardless of no of records

Economic
- It's a rent deal, pay as you go
- The school might charge the parents against the mobile tracking and notification services.

Requirement

Internet access with map and enabled location service for the mobiles (supervisor and parent)

Technical Support

- Through email or direct feedback from mobile application
- Reply within 48 hours
- Urgent cases within 24 hours
