

VEHICLES MANAGEMENT

About OASN Solutions

OASN Solutions is IT technology provider in general and platform Development company specialist in Web and Mobile Applications. We identify market needs and develop state-of-the-art tools to address those needs. We focus on usability, agility and simplicity with a global vision to cover the needs of different markets.

Platform

- Vehicles Management is a Web application based on Cloud Access (no on-premises installation, servers or database)
- is accessible by browser vis Internet and Mobiles (supporting iOS and Android)
- English /Arabic Language (upon request)
- Zero downtime
- Credibility of Google technology and support services

V1.0

"Vehicles Management" is a revolutionary platform that aims to streamline the connection between vehicles and transportation providers. Through this platform, vehicles can be directly linked with the transportation providers, making it easier for users to request for vehicles. This integration also includes financial tools that capture the revenues and expenses, making it efficient for both the providers and the users. With this platform, users will have the ability to easily order vehicle requests, eliminating the need for manual processes and paperwork.
